# The PMP® Certification Exam

The PMP® exam includes content that spans the value delivery spectrum, including **predictive**, **adaptive** and **hybrid** approaches. It was updated in 2021 to reflect the fuller complement of skills and approaches found in our dynamic and global profession.

Just like the sides of the PMI Talent Triangle®, we focus on three performance domains in project management:

**People** | Power Skills – 42%

**Process** | Ways of Working – 50%

**Business Environment** | Business Acumen – 8%

# Learning Topics

---

The learning topics in this training come directly from the PMP® exam content outline (ECO). The ECO is the basis for the PMP® exam.

The relevant ECO content appears at the end of each topic, for your reference.

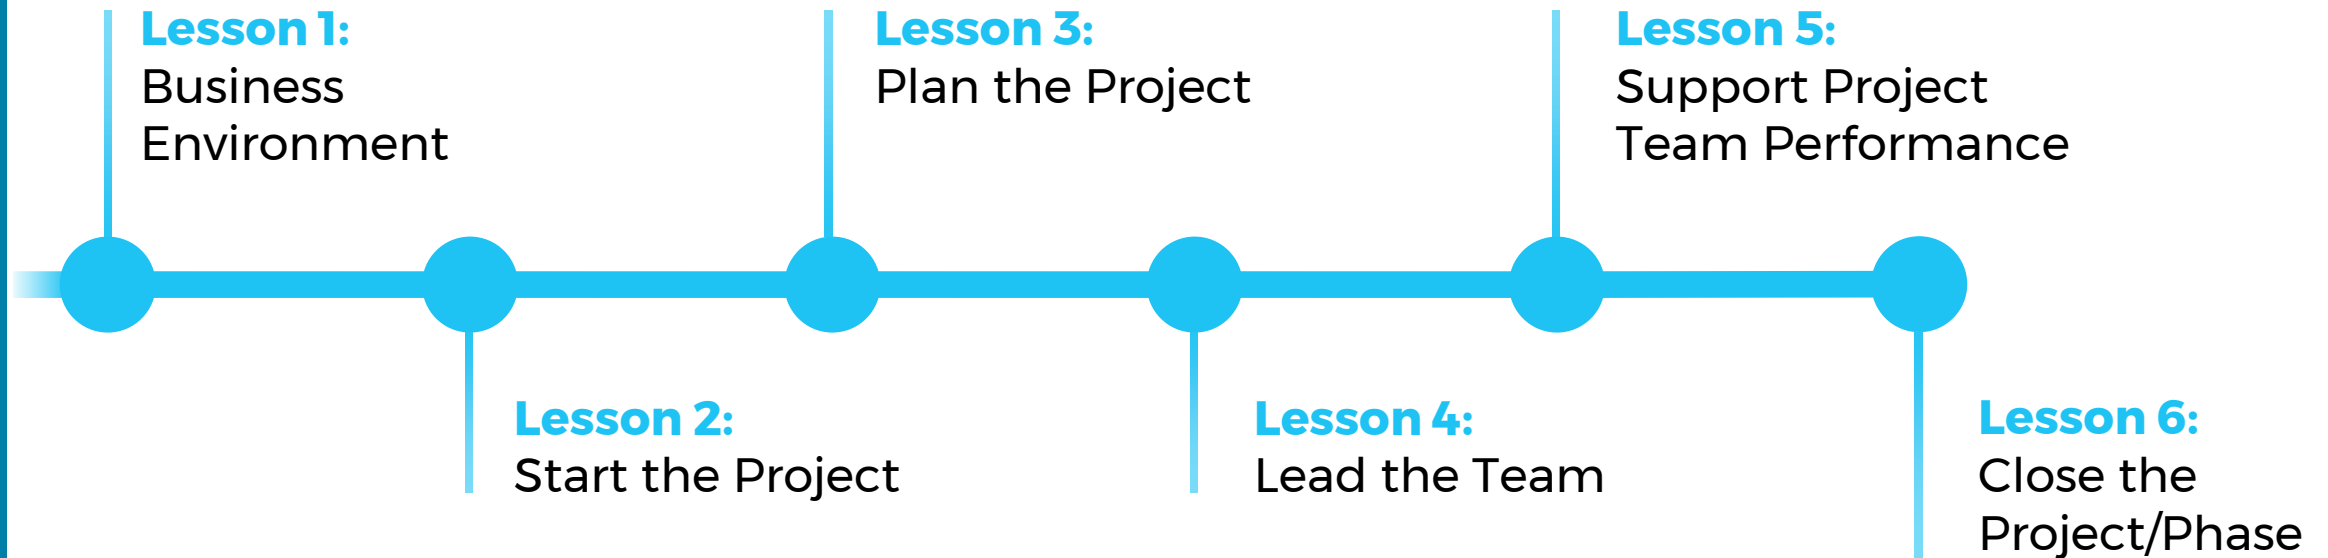

The ECO was created by a global selection of PMI members who hold the PMP® certification and work in diverse industries. It includes what they think you need to know to do the job, including experience and broader business concepts.

A copy of the ECO will be provided to you as part of your study package

# Content – what you will learn

# The PMP® Exam Format
